

HEALTH INFORMATION EXCHANGE, CARE EVERYWHERE AND HEALTHIX CONSENT FORM

In this Consent Form, you can choose whether to allow the health care providers listed on the NYU Langone Health System Health Information Exchange ("HIE") website <http://health-connect.med.nyu.edu/> ("HIE Participants") and non-NYU Langone health providers who may request access to your medical records for purposes of current treatment ("Care Everywhere Providers") to obtain access to your medical records through a computer network operated by the HIE. In order for a Care Everywhere Provider to know that information may be available through the HIE, you must tell them that you were/are a patient of an HIE Participant and that such information may be available upon request. This can help collect the medical records you have in different places where you get health care, and make them available to the providers treating you.

You may also use this Consent Form to decide whether or not to allow employees, agents or members of the medical staffs of NYU Langone Health System and affiliated entities to see and obtain access to your electronic health records through Healthix, which is a Health Information Exchange, or Regional Health Information Organization, a not-for-profit organization recognized by the state of New York. This can also help collect the medical records you have in different places where you get healthcare, and make them available electronically to the providers treating you. This consent also gives your permission for any NYU Langone Health System and affiliated entities program in which you are a patient or member, to access your records from your other healthcare providers authorized to disclose information through Healthix. A complete list of current Healthix Information Sources is available from Healthix and can be obtained at any time by checking the Healthix website at <http://www.healthix.org> or by calling 877-695-4749. Upon request, your provider will print this list for you from this website.

YOUR CHOICE WILL NOT AFFECT YOUR ABILITY TO GET MEDICAL CARE OR HEALTH INSURANCE COVERAGE. YOUR CHOICE TO GIVE OR TO DENY CONSENT MAY NOT BE THE BASIS FOR DENIAL OF HEALTH SERVICES.

The HIE and Healthix share information about people's health electronically and securely to improve the quality of health care services. This kind of sharing is called ehealth or health information technology. To learn more about ehealth in New York State, read the brochure, "Better Information Means Better Care". You can ask your health care provider for it, or go to the website www.ehealth4ny.org.

PLEASE CAREFULLY READ THE INFORMATION ON THE FACT SHEET BEFORE MAKING YOUR DECISION.
