

Learning and Partnering with Patients, Families and Staff ➔ Achieving High Reliability

Quality and Safety Improvement Initiatives

Initiative	Aims	Progress		Staff Action	Safety Behavior and Tool	Key Take Away	Family Partnership
CLABSI (Central Line Associated Blood Stream Infection)	To ensure 100% of all CVLs placed on the unit are audited using the CLABSI insertion bundle by November 1 st , 2018.	e.g. Annotated Run Chart	e.g. CVL Insertion Audit	Remind staff members to complete form in real-time and as a check-list, in partnership with line inserter.	 	It has been: 79 days since our last CLABSI.	Remember to ask your Care Team about care of central venous lines.
Pressure Injuries (PIs)	To achieve 90% bundle compliance during bedside rounds by December 1 st , 2018.	Annotated Run Chart	e.g. Changes in Protocol or Practice	Skin champions to complete required three PI audits by the end of the month. Skin Rounds on high-risk patients once weekly	 	We are currently: 85% compliant with our Pressure Injury Bundle Compliance.	We invite you to ask how we protect your child's skin during their hospital stay.
<i>Initiative the unit is working to improve.</i>	<i>Clinical or cultural SMART aim: Define what, for whom and by when.</i>	<i>Annotated run charts, changes to protocols and changes in practice to demonstrate both process and outcome measures related to progress.</i>		<i>Key points from Nurse Manager, Medical Director and Master Trainer-led huddles.</i>	<i>Applicable HRO safety behaviors and tools</i>	<i>Communicate overall progress of initiative to patients, families and frontline staff.</i>	<i>Invitation to families to partner with frontline staff:.</i>

Opportunities Identified:

Issues	Owner	Progress	Results
Biopatch Stocking	MGMT	Complete	Added to Par
PACU Handoff	CRN	Complete	PACU has tool
What?	Who follows ?	Pending or complete?	What changed?

Staff Recognition

Great work Jen for all of your help with the PICC attempt!

Colleagues, patients and families can acknowledge frontline staff who members display strong support on the unit and use safety behavior and tools in practice.

Patient and Family Updates:

Remember to ask Rebecca, your Child Life Specialist, about the Stress Thermometer!

Insert updates from the Family Advisory Council, therapies, Child Life and Social Work.
