- Proxy Access Request and Authorization Form must be complete and signed.
- The proxy will have access to the patient's full MyChart account, including all information available to the adolescent patient through MyChart.
- The proxy must have his/her own MyChart at NYU Langone account because the patient's chart will be accessed through the proxy's "MyChart at NYU Langone" record.

- **MyChart at NYU Langone is not to be used in an emergency.**

- I must select a confidential password to maintain my password securely and change my password if I believe it may have been compromised in any way.
- If I share my MyChart at NYU Langone ID and password with another person, that person may be able to view my health information, as well as information about any adult who has authorized me as a MyChart at NYU Langone proxy.
- If I have proxy access, I must log in to my own MyChart at NYU Langone account and click on "View Other Records" to access another patient's record.
- MyChart at NYU Langone contains selected, limited medical information from a patient's medical record and is not the complete medical record.
- My activities within MyChart at NYU Langone may be tracked by computer audit and entries I make may become part of the medical record.
- Access to MyChart at NYU Langone is provided as a convenience to its patients and NYU Langone has the right to deactivate access at any time for any reason.
