

Social Work Services

Many patients find it really helpful to talk with a Social Worker about their experience with cancer. Tell us what's going on, and we'll do our best to provide information, support, individual/group counseling and important referrals.

COMMON REASONS WHY PEOPLE CONTACT US

- Financial issues
- Employment concerns
- Transportation needs
- Home meal delivery, home health care, and medical equipment
- Support in communicating with family, friends, or medical team
- Caregiver issues
- Making decisions for future medical care (advance directives)
- End-of-life issues and hospice coordination
- Brief counseling for trouble coping and adjusting to your diagnosis
- Referrals for longer-term mental health counseling
- Referrals to support groups
- Referrals to other support services in your community

PATIENT GROUPS

A cancer diagnosis can create a wide range of emotions. Feelings may include shock, fear, anger, sadness, and a sense of loss and isolation. Joining a support group can help you navigate these emotions and feel more connected.

If you are living with cancer, join us to share your experiences and thoughts while learning from others in a safe, confidential and supportive space.

Before attending, please call for more information and to see if the group is right for you.

Please note that all groups, at this time, meet virtually.
