

### NYU HOSPITALS CENTER PRIVATE ROOM AGREEMENT

You have asked for a private room, and have agreed to pay an extra charge for each night you use the private room. Your health insurance covers the standard costs for room and board. It does not cover your request for a private room.

We have three types of private rooms, some larger than others. Some may have added refrigerators, seating, or cots. Not every type of room is available on every unit. The private room you have agreed to use is:

- |   |                         |       |                        |
|---|-------------------------|-------|------------------------|
| <input type="checkbox"/> <b>HJD Standard</b>              | for a nightly charge of | \$390 | (\$1,170 for 3 nights) |
| <input type="checkbox"/> <b>Tisch Standard</b>            | “ “                     | \$375 | (\$1,125 for 3 nights) |
| <input type="checkbox"/> <b>Tisch Premium/Post-Partum</b> | “ “                     | \$525 | (\$1,575 for 3 nights) |

We ask you to pay for the number of nights the patient will stay in the private room. Unless we know that your doctor expects to discharge the patient sooner, we collect payment for at least 2 days in a Post-Partum room, or 3 days in our other units.

You are paying now for \_\_\_\_\_ **nights** in room \_\_\_\_\_, for a total cost of \$ \_\_\_\_\_. The charge is for the use of the private room

From \_\_\_\_\_ (day & date), \_\_\_\_\_ am/pm  
Until \_\_\_\_\_ (day & date).

Rooms are charged from midnight to midnight. You are charged for a private room if you use it and we cannot assign it to someone else for that night. If we need to transfer the patient out of the private room before midnight, we will refund your money for that night.

If you pay by credit card, we can refund your money on the card within 48 hours. After 48 hours, a check will be written and mailed to you. We will also send a check for partial refunds or for payments made by check or cash.

After \_\_\_\_\_ (day & date), you will need to pay again before staying any more nights in the room. You will need to pay if the patient stays in the private room after a semi-private room is ready. You will not need to pay if the patient is discharged, transferred, or needs the room for clinical reasons. If you have not paid, you will be billed for every unpaid night the patient chooses to stay in a private room.
