(Translation: Yes, I agree that they should do that because this hospital really needs it, and there are practically many of us—myself included, because I'm here now with my daughter—and I think it's the best thing they can do because there are always babies who need help, so it would be the best option for them to do that project there.)	
Caregiver 003		11/19/2025	other	Patient/caregiver		In-person interview	Yes	yes	yes	I support the expansion of the NICU with the nurse-to-patient ratio stays reasonable and where families are not crowded together but given opportunities to be with their children in the comfortable, private environment.	
Caregiver 004		11/19/2025	other	Patient/caregiver		In-person interview	Yes	yes	yes	I support the NICU being expanded because, if you are here for a long stay that I have been, it becomes like your second home. And having enough space as your baby's getting older and growing, to do things with them, possibly in the space that you're provided near their bedside. I know my neighbor's baby, at one point in time her baby was big enough to do tummy time, and it was very limited in the space that he had to get on the mats and get on the ground. Also, the privacy part about it, in terms of if you're speaking to a doctor, provider, surgeon, whatever, and you want a little bit more privacy space, the x-rays, the different things that babies are getting you want to have your baby be at least have a little bit more space. I feel a little bit more lucky that I'm in a pod with 4 babies, versus having it be so much more condensed. Thinking about in the future, someone else coming into	
Caregiver 005		11/19/2025	other	Patient/caregiver		In-person interview	Yes	yes	no		Thinks the extra space will help improve the quality of care but is worried about how they will make the transition with babies in such vulnerable conditions. Noted that there are a lot of different barriers to accessing care like the cost of traveling to the NICU and loss of work hours but there's always solutions to help mitigate those barriers and social support services provided by staff (i.e. mental health services)
Caregiver 006		12/8/2025	other	Patient/caregiver	no	Zoom interview	Yes	yes	yes	"Yeah, it's like its own little village. You know, its own little world, and it really needs to be built out like any village where there's just people have their own space, their own privacy, some communal areas. You could be there for one another, but you also don't have to be a part of it if you're not supposed to be or don't want to be. People need to be able to preserve their own emotional and mental health by tuning out. You know, being apart or away from what's going on. And when you're in a cramped space, you can't take care of yourself. You know, my stress was so high all the time, which of course, it was. But I think there are things that could have made it a calmer experience, and if I'm calmer, if kangaroo care really does what it's supposed to do, then the babies are calmer. And maybe it doesn't have to be such a, I mean, I think it would always be a traumatic experience, but maybe like the things that don't have to contribute to that trauma maybe could, you know, not be a part of it then. We don't need to compound the trauma."	
Caregiver 007		12/9/2025	other	Patient/caregiver		Zoom interview	Yes	yes	yes	"I can just say, yes, it's good. But, yeah, my statement is, I do think an expansion would be beneficial for the number of reasons we discussed, and I'm sure there are others I haven't thought of. But especially because you're not changing the footprint of NYU in the neighborhood, it's just working with the structure that's already there. I think it would be a wonderful thing to expand the NICU."	
Caregiver 008		12/9/2025	other	Patient/caregiver		Zoom interview	Yes	yes	yes	"I think it's a great idea to expand the NICU as long as we can continue with the continuity and level of care as we traditionally have."	
Caregiver 009		12/12/2025	other	Patient/caregiver	yes	Zoom interview	Yes	yes	yes	"I'm highly supportive of the expansion. I believe this will help the health system better serve more families and provide superior services relative to what they're able to do today, which is already at a very high level of care."	
Caregiver 010		12/15/2025	other	Patient/caregiver	yes	Zoom interview	Yes	yes	no		Stressed the importance of communication for caregivers to have an equitable experience; mentioned a non-English speaking patient having trouble producing milk because of language barriers during NICU stay related to lactation support; did not meet the social worker until one month into NICU stay due to communication challenges
Caregiver 011		12/15/2025	other	Patient/caregiver	yes	Zoom interview	Yes	yes	yes	"I'm in supportive of it, and I think, similar to all the reasons I said earlier, is that I think that based on what you were describing, that additional beds and a larger space would seem to be an improvement in care, not necessarily anything negative, so I feel like this could just really only lead to something better."

Caregiver 012		12/16/2025	other	Patient/caregiver	yes	Zoom interview	Yes	yes	yes	"Yeah, I think what I said previously, I'm gonna try to remember, it was something like, I'll take pumping next to 3 or 4 women in a small space, if one more baby can be helped in the NICU. Meaning, that we need space for as many babies as possible."	
Caregiver 013		12/16/2025	other	Patient/caregiver	yes	Zoom interview	Yes	yes	yes	"Yeah, I absolutely think it's a great idea and very much needed. I was saying, while we were there, that 6 beds should not be, it just shouldn't be a thing that 6 beds, 6 babies in one that, like, that area should have been rethought when they developed the rest of the hospital's beautiful, and it felt really unfair that the families, it's babies that they can't be there by themselves, like, they need other people, you know, that adults have tons of room and that people who require multiple people as part of their care had to be like sardines, that felt really unfair being in it. So, I one hundred percent say yes."	
Caregiver 014		12/16/2025	other	Patient/caregiver	yes	Zoom interview	Yes	yes	yes	"I'm encouraged to hear of plans to expand the NICU and mainly hope this serves to increase access to excellent medical care to families of all backgrounds. This might be done by ensuring staff expansion as appropriate to NICU beds, continuing to accept transfer of infants from other hospitals if their needs can be better met at NYU, and communicating to families what the expansion means for their care (e.g., what different sections and floors of the NICU serve to provide). Our family got excellent care in the NYU NICU and happy to hear they are in a position to give more families this level of care."	
Caregiver 015		12/18/2025	other	Patient/caregiver	yes	Phone interview	Yes	yes	yes	"I think it's a good idea to expand the services at NYU Langone. I find the doctors and the nurses, from the workers to the maintenance team to the assistants to the nurses, I find them all to be very personable, very educated. And I think they need a good working space as well. I think the expansion will be helpful for parents. Particularly, if you're gonna have, you know, a severely ill child, because I believe NYU is like a trauma level 4 or level 5, but I know that my daughter wouldn't have received that care in other hospitals. She would have been transferred to NYU, and I'm thankful that she was actually there. Even the little space she had, I'm very thankful that she was there because the doctors were very knowledgeable. I can't speak enough about them."

CBO 003	AdaptHealth New York	12/5/2025	community leaders	yes	Zoom interview	Yes	yes	yes		"I mean, essentially, I think it's a great idea. I think that there is no network, and maybe I'm a little biased, because, you know, NYU has been my home for so long. But now I oversee the full network, meaning Adapt Health, no just specifically NYU. But yea, there's no program that I've worked with that's...they really have thought of, like, how can we best serve patients regardless of their background than the NYU social work and care management staff. This process with them has been very thought out for every piece of equipment that we provide, and I think it's only going to better New York to have a more expanded NICU."

Staff 001	NYU Langone	11/11; 11/14	organizations representing employees	yes	Zoom interview	Yes	yes	yes		I think that, it'll be beneficial to the NICU to have more beds, more space, even private rooms, just to be able to provide our patients with a more private and...a better experience where they're not...so...where they have their own privacy, and can bond with their children.

The NYU Langone NICU, a Level IV tertiary center in New York City, is reflective of these statistics with a growing census and increasing acuity notable in its patient population. The NYU Langone NICU serves the diverse NYC community and the hospital's smallest and most vulnerable patients and their families. The current environment leads to crowding and potential diversion that impacts the baby, family and the staff. Impacts include increased stress, moral distress, ergonomic concerns, cultural insensitivities and potential for violations of HIPPA, affecting quality of care. Infants are subjected to toxic noise levels due to 6-9 patients, 12-18 family members and multiple staff being within several feet of their bedspace. A family's ability to be comfortable and

Although it will be difficult in the beginning, I think eventually it will be able to allow us to provide higher quality of care for our patients and families that we serve by giving them more space, and also helping nursing and medicine provide the care that they need in a better area.

According to 2022 NYC Health Department Vital Statistics data, Manhattan has the lowest birth rate in NYC, while the Bronx and Brooklyn have the highest. Given the recent consolidation of NICU sites in Manhattan and the existence of few Level 4 NICUs in Brooklyn, we urge the applicant to target outreach to communities outside of Manhattan and consider future expansions to Brooklyn.
